

CRISTALFLEX

Flexible hose without reinforcement for use without pressure. Composition: PVC. Mainly in the garden, a range of uses in the house and conveying water in general. The diameters of 8 and 10mm are used chiefly as levels in civil construction. Group 390 195 is used especially in the gasoline carrier. The cristalflex atóxico (group 303 190) is indicated for the levels in the alcoholic beverages deposits.

Hose construction

Reinforcing braid;
Colour: transparent crystal.

Presentation
