

TIMBERDUC® PUR 534 SE

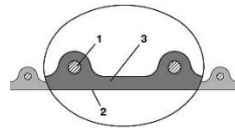

Special suction and transport hose in flame-retardant polyurethane resistant to aggressive wood types and wood preservatives, especially suitable:

- for the suction of wood dust and wood chips on wood processing machines
- for high flow-rates of abrasive solids such as powder, chips and granulates
- for de-dusting and suction plants

Hose construction

1. spring steel wire spiral embedded in wall
 2. profile with optimised flow properties
- wall: premium

polyurethane, resistant to aggressive wood types and wood preservatives, with flame-retardant additive (Pre-PUR®)

3. wall thickness 1.5 mm approx.

- conforms to the safety regulations of the GermanWood Trade Association
- super-heavy model
- highly abrasion-proof
- smooth interior
- optimized flow properties
- flexible with low weight

Temperature range

-40°C ÷ +90°C, with peaks up to +125°C
