

## AFI/10B

Mandrel built cooling water S/D hose with insulating properties for the steel and glass manufacturing industry. Resistant to steel splashes.

### Hose construction

**Tube:** White smooth rubber with insulating properties and resistant to heat

**Reinforcement:** High tensile textile plies

**Cover:** Special coloured rubber, insulating and heat resistant. External glass fibre ply treated with self-extinguishing rubber.

For the steel and glass manufacturing industry.

### Hose temperature range

to +120°C
